

Clinical Learning & Development Catalogue

The aim of this Clinical Learning & Development Catalogue is to advise you all of the available learning opportunities in chronological order and allow you to tailor your individual learning needs.

The links to book the individual online/face to face training events will be at the bottom of each slide, please book these independently.

If you are aware of training that isn't included in this catalogue, then I would be grateful if you could email me & I will add this in- karis.ramsay1@nhs.net

I will aim to publish this bimonthly.

*There are a host of training courses both provided by the NHS and private providers (inc Pharmaceutical Companies), while those provided by the NHS subscribed to NHS standards and are Free, **some of the privately provided courses are not Free and the ICB & Primary Care Training Hub are not in a position to endorse or verify the quality of those courses, but wishes to make this information available within the catalogue for users to make their own choices.***

[Joint Working with Pharma Industry Policy-Link](#)

5.1.3-Staff should be aware of NHS Guidance, the legal position and appropriate and relevant professional codes of conduct as described in existing NHS guidance.

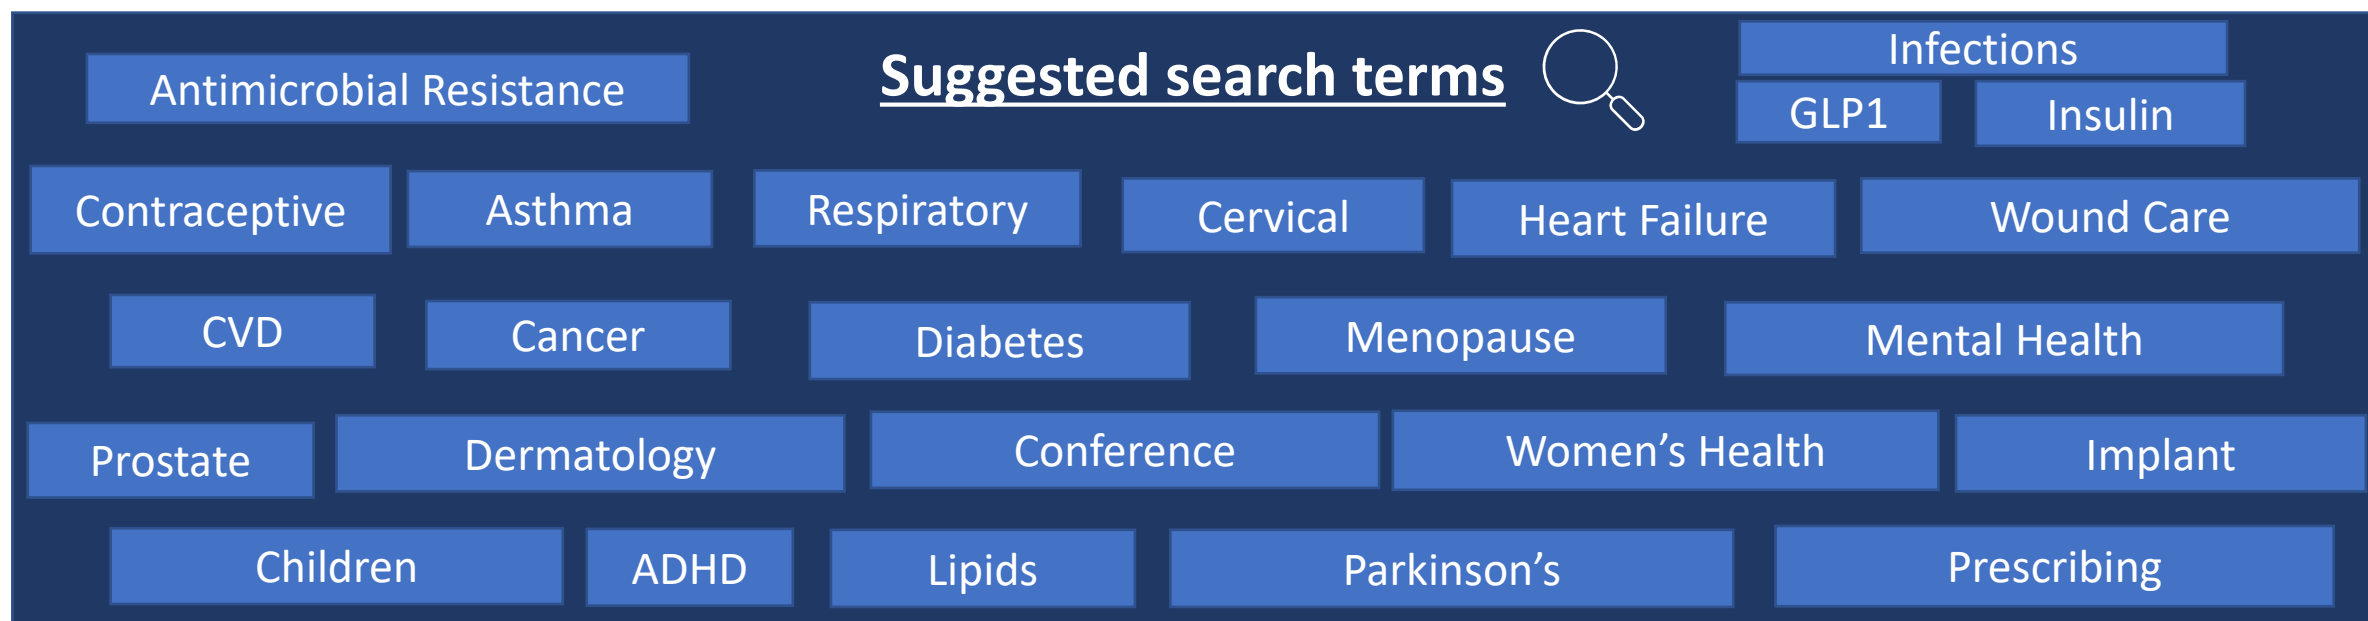

7.3 -Staff are reminded that at all times they have a responsibility to comply with their own professional codes of conduct and that representatives of the Pharmaceutical industry must comply with the ABPI Code of Practice for the Pharmaceutical Industry.
