

Manage with Impact Level 3

Build valuable skills to excel as a manager

instep

This management development programme gives emerging managers the skills to guide, motivate and manage teams effectively.

The programme combines ignite digital eLearning modules, ½ day immersive masterclasses, and impact evidence to support the end point assessment portfolio.

This programme consists of 8 modules that are delivered within a 13-month timeframe. Regular one-to-one coaching sessions are scheduled every 5-6 weeks, where additional learning activities embed knowledge and showcase skills and behaviours.

Emphasising the empowerment of diverse individuals

Apprenticeship

Who's it for?

The Manage with Impact programme has been designed to support managers who are looking to provide direction and guidance to team members.

Their key responsibilities typically include:

- **Empowering Teams** – Motivating and empowering team members to thrive in their roles. Following policies and procedures to reward and improve performance of team members.
- **Support Organisational Change** – Champion change management within the organisation to ensure the reasons for change are understood and adopted
- **Optimise Operations** – Relating organisational strategy to operational objectives. Managing resources and budgets to ensure that operational plans and targets are met.
