National HPV vaccination catch-up campaign for 2025/26

The 2025/26 GP vaccination campaign is focused on HPV catch-up for 14-24-year-olds (inclusive). This aims to address declines, reduce variation in uptake and subsequent cancer prevalence.

Practices are asked to:

- Check all eligible patient immunisation records have been updated following notification of vaccination events
 - Invite those identified as unvaccinated aged 16-24 (inclusive) for vaccination
 - Update records for patients who do not respond to invites or attend appointments
- Continue to offer opportunistic vaccination to anyone currently unvaccinated aged 14 or over

This campaign runs until 31 March 2026.

RCN Webinars – click on topic to attend

16 April 2026, 1 - 2pm – Men's and women's health

16 July 2026, 1 - 2pm – Students and placements

15 October 2026, 1 - 2pm – Public health

GLOUCESTERSHIRE PRIMARY CARE
TRAINING HUB

NHS England has published animation on suicide prevention to support staff on how to recognise signs of suicidal distress in themselves and others, and the ways in which they can seek help.

Called 'Opening Doors', the resource has been developed by the authors of the Zero Suicide training, in partnership with healthcare staff who have been impacted by suicide.

The aim of this training is to:

- Raise awareness of suicide risk within healthcare colleagues.
- Enable staff to recognise signs of suicidal distress in themselves and others.
- Support healthcare staff to intervene if they are concerned that a colleague is suicidal, encourage help seeking behaviour and signpost to support.
- Challenge the stigma of seeking help within the healthcare community.

The training compliments the [Suicide Prevention toolkit](#), which was included within the [DHSC Suicide prevention strategy for England: 2023 to 2028](#).

The training is free to undertake and available on the [NHS Learning Hub](#).

Are you a Student Nurse mentor in General Practice?

Please may I advise that I have received notification from the University of Gloucestershire to advise that with effect from 15th January 2026 , all undergraduate BSc Nursing Students completing venepuncture will be required to complete this procedure under the direct supervision of a Registered Healthcare Professional with appropriate skills and experience.

Although Registered Nursing Associates can supervise BSc Nursing students in Part 1 or Part 2 of their programme as a Practice Supervisor, Registered Nursing Associates cannot supervise a Nursing Student in Part 3 in any capacity. Registered Nursing Associates also cannot act as a Practice Assessor to any BSc Nursing Student.

Here is a link which the University have shared for further advice and guidance

myCOPD – Free Licences Available

As part of our winter respiratory campaign, we would like to remind practices that the ICB has around 1,000 free myCOPD licences available for primary care to issue to patients.

myCOPD is a digital app designed to support people living with COPD, providing lifelong access once a patient is registered. The app is now NICE-recommended for self-management and pulmonary rehabilitation, and includes:

Easy-to-follow inhaler technique videos

Online pulmonary rehabilitation exercise sessions

Educational modules covering breathlessness, medication, chest clearance and more

Self-management plans, activity tracking and inhaler diaries

To issue a licence, please email Gloucestershire Digi Hubs at community@fvaf.org.uk with the subject line “myCOPD app”.

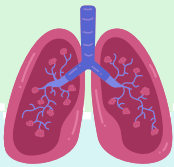

The Digi Hubs team can support you with the sign-up process, provide demonstrations, and offer 1:1 onboarding for patients.

Quote from Gloucestershire Digi Hubs:

“The Digi Hubs team is proud to support the rollout of the myCOPD app and aid the removal of barriers by offering personalised 1:1 onboarding and ongoing support to patients across our hub network. We’re here to make sure patients feel confident using the app and can access its full benefits.”

You can find more information about the app here: [myCOPD: The COPD app for controlling your symptoms](#), however if you require further information please contact Fran Mason-Rowland (fran.mason-rowland@nhs.net)

Please note that practices will not be expected to provide clinical support once patients are registered. Technical support is available directly from the app provider.

Adult and Child Immunisation Update

We are pleased to now be offering an approved Adult and Child Immunisation Update, which has been accredited by CPD. This course meets the requirements of immunisation training standards as set out in the latest National Minimum Standards and Core Curriculum for Vaccination Training (UKHSA, June 2025).

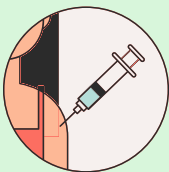

The course is delivered online and is recommended to be undertaken on an annual basis (UKHSA, 2025).

Our trainers are all very experienced nurses, each with over thirty years' experience. All have a wealth of knowledge in immunisations and have worked at the forefront of vaccination services in both secondary and primary care.

We have made the course informative in terms of its mandatory content, while also providing very practical elements to make the clinician's job of navigating the various immunisation pathways easier.

A certificate of attendance will be provided, as well as a factsheet with links to available tools and websites that will help vaccinators with any queries.

As you are aware, finding a cost effective immunisation update course is challenging so we are pleased to be able to offer this to you. Please share this with your nursing team.

Please click on the link below to see the available course dates.

Primary Care Leadership Programme Opportunities

Below, full information can be found regarding three Programme opportunities:

Exciting Opportunity for fully funded Mary Seacole Programme – CMI

The Mary Seacole programme offers nationally consistent, entry-level leadership training for practice managers, nurses, PCN managers, community pharmacists and early-career GPs. It builds confidence, core leadership skills, and resilience – strengthening succession planning and stabilising neighbourhood teams.

This helps frontline leaders deliver prevention-focused care, improve productivity, and support the NHS ambition to shift services from hospitals into the community.

CMI qualifications are designed to meet the knowledge, skills, and behaviours sought by employers in their workforce.

Learners will have the opportunity to achieve CMI Level 5 Certificate in Management and Leadership, alongside obtaining the NHS Leadership Academy Award in Healthcare Leadership.

Programme length: **10 months**.

Delivery method: **Online with independent online learning**.

Course Fee: **FREE. Fully Funded Places (which would usually cost £1200)**

Start date: **February/March 2026**

Exciting Opportunity for fully funded Rosalind Franklin Programme – CMI

Neighbourhood teams depend on mid-career leaders to integrate care, manage pressure, and keep staff engaged.

Yet, leadership development opportunities in primary care have lagged those in secondary care.

The Rosalind Franklin programme helps close this gap by offering tailored leadership training for practice managers, lead nurses, PCN managers, community pharmacists, and mid-career GPs. It strengthens leadership capability,

builds a diverse pipeline of future senior leaders, and supports the government's three shifts:

Boosting productivity through strong local leadership

Embedding prevention via better coordinated care

Enabling truly place-based services

This is key to delivering the NHS 10 Year Health Plan's goal of shifting care closer to home.

CMI qualifications are designed to meet the knowledge, skills, and behaviours sought by employers in their workforce.

Learners will have the opportunity to achieve CMI Level 7 Award in Strategic Management and Leadership Practice, alongside obtaining the NHS Leadership Academy Award in Senior Healthcare Leadership.

Programme length: **12 months**

Delivery method: **Online with independent online learning**.

Course Fee: **FREE. Fully Funded Places (which would usually cost £1500)**

Start date: **February/March 2026**

Exciting Opportunity for partially funded Elizabeth Garrett Anderson Programme

Primary care leaders play a vital role in shaping integrated neighbourhood services, improving patient outcomes, and leading transformation at system level. Yet, senior leadership development in primary care has often lagged

opportunities available in secondary care.

The Elizabeth Garrett Anderson Programme addresses this gap by offering advanced leadership training tailored for senior leaders in primary care – including PCN Clinical Directors, senior GPs, practice managers, and system-level

leaders. It equips participants with strategic leadership skills, system thinking, and inclusive approaches to drive change across local health economies.

This programme is key to achieving the NHS Long Term Plan's ambition of shifting care closer to home and strengthening local leadership.

Programme length: **24 months**

Delivery method: Blended learning (online modules, residential workshops, and applied projects)

Course Fee: **This programme is funded through a dual model: £7,000 by the NHS Leadership Academy and £7,000 by the applicant's organisation or self-funded.**

Start date: **February/March 2026**

For further information, please click this [link](#)

Core Standards & Training Updates

UKHSA National Minimum Standards for immunisation training 2025.pdf

Regions to review

links/relationships with current regional immunisation teams, and oversight of commissioning offers for training and education in their ICBs

Amend regulations to support the supply and deployment of vaccines - GOV.UK

Regions to be aware of impact for NA role schedule 17 and 247a. Locally offers to incorporate legal mechanisms into training plans.

Webinar: upcoming changes to the routine childhood immunisation schedule : Cascade to Primary and Community Teams please!

The UK Health Security Agency (UKHSA) Immunisation Team, in collaboration with NHS England, is hosting a webinar at 2 - 3.15pm on 3 December 2025, to inform colleagues of the second phase of the changes to the routine childhood vaccination schedule which will be implemented from January 2026. This will include the introduction of a varicella (chickenpox) vaccination programme (MMRV) and a new routine vaccination appointment at 18 months of age.

This webinar is aimed at health professionals involved in the commissioning and delivery of childhood immunisations including those working in primary care, screening and immunisation teams, health visiting teams and integrated care boards (ICBs). Colleagues should register their interest via Microsoft Forms. This webinar will be recorded.

Changes to Childhood Vaccination Programme

Changes to routine childhood schedule announced in the GP contract

- Children turning 12 months on or after 1 January 2026 will receive two doses of MMRV (at 12 and 18 months).
- Children turning 18 months on or after 1 January 2026 will receive one dose of MMRV (to complete their two-dose MMR schedule).
- Children aged 18 months to 3 years 4 months on 1 January 2026 will receive one dose of MMRV instead of their 2nd MMR dose. Of this cohort:
 - those aged 18 months to 2 years 6 months will be invited to a brought forward appointment for their 2nd MMR dose (as MMRV) between 1 January 2026 and 31 October 2026
 - those aged 2 years 7 months to 3 years 4 months on 1 January 2026 will receive their 2nd MMR dose (as MMRV) at their existing scheduled 3 years 4 months appointment before 31 October 2026.
- Children aged 3 years 4 months to less than 6 years will be invited for a universal single catch-up dose of MMRV. Appointments to be scheduled from 1 January 2026 and completed by 31 March 2027.
- Children aged 6 years to less than 11 years will be invited to receive a single dose of MMRV if they have no history of chicken pox. Appointments to be scheduled from 1 January 2026 and completed by 31 March 2027.
- From 1 April 2027, an opportunistic or on request offer will remain for varicella (as a single dose of MMRV) to all children aged 3 years 4 months to less than 11 years before 1 January 2026 who have no history of chicken pox.
